

Vacancy: Web Developer

- Salary From: £26,000 dependant on experience
- Type: Full Time

We are looking for an experienced Web Developer to join the team, at an exciting stage in the company's development.

We're offering

- a competitive salary
- 28 days holiday (plus bank holidays)
- Career progression opportunities
- Excellent working environment

Main Responsibilities

Required experience includes most or all of the following:

- Linux Apache MySQL PHP (LAMP stack)
- HTML/HTML5
- CSS/CSS3
- JavaScript (preferably using jQuery library)
- Cross-browser and cross-device development (e.g. responsive)
- Git
- Website development
- Ability and desire to learn new technologies
- 3 (or more) years in a Web Developer position
- Knowledge of open source platforms and software (e.g. WordPress and Magento)

In addition to the technical ability above, the ideal developer will be commercially minded with strong interpersonal skills, be comfortable in front of a client and have the ability to explain technical subjects to non-technical people.
